

Goals

As a part of our continued effort to provide the best quality experience possible for your family, we would like to share with you the goals Strong Rock has for each camper. These are the essential goals for accomplishing our mission statement.

1. To provide opportunities for campers to learn about Christian character and values.
2. To provide opportunities for campers to learn about God's purpose for man collectively and individually.
3. To foster in campers an appreciation for and appropriate stewardship of God's creation.
4. To strengthen campers' self-confidence and courage.
5. To help campers develop independence.
6. To help campers learn good decision making skills.
7. To provide opportunities for campers to learn new skills in recreational activities.
8. To provide opportunities for campers to learn new skills in educational development activities.

After your child's session we will be asking you to complete an evaluation form that will allow you to provide feedback concerning your child's accomplishment in some of these goals. It would be of great benefit to us if you would take the time to complete the evaluation so that we may continue our pursuit of excellence in service to your family.
